- Corrugated, foam, molded pulp, plastic corrugated
- Prototyping & Samples
- Experienced resource
- No short order tooling requirements
- More than 25 years design/industry expertise

### What Sets Us Apart

Established in 2007, Pac Basic is a full service packaging supplier with custom packages for the electronic, medical, filtration, recreation, technology, and other manufacturing markets. Our customer base is a diverse portfolio exceeding 50 organizations, several of which are listed Fortune 500. Our annual gross sales exceed \$7 million, and our average order sizes range from \$500 to \$60,000.

Our company was established to help customers with their basic package design needs, prototyping, and JIT runs/on-time delivery. In addition to plain corrugated boxes and foam inserts, we also excel in returnable/reusable packaging.

Pac Basic's emphasis is on quality and customer service. This has led to maintaining warehousing and daily releases in our customer's neighborhoods, saving them time and money in logistics and freight.
